## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 9 and 11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 9, there is no clear antecedent basis for the recited "outer portions". In claim 9, at the last line there is recited "second openings". Since there is no recitation of first openings, it is unclear why applicant has recited second openings. Additionally, in claim 9, it is unclear what is defined by the recited "another portion" at line 3. Is this supposed to be where the "outer portion" is defined?

In claim 11, there is no antecedent basis for the recited "ridges" or "ridge".

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 9 and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by Holbrook et al.

There is disclosed in Holbrook a flavor plate 26 for use in a barbecue appliance 10 wherein the plate has three inverted V-shaped sections with three peaks 70 and two

valleys 76, the plate having an outer portion (ridge) 74 along each side, each of the outer portions sloping downward and outward and have between them an opening 82, each of the outer portions having a plurality of openings 80.

***Allowable Subject Matter***

Claims 1-8 and 10 are allowed.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Pietro and Schroeter et al. are cited for their disclosure of a reflective plate and barbecue combination.
